

# Managed Portfolio Service - Sharia Defensive GBP

March 2024

## Portfolio objective

The objective of this portfolio is to achieve returns greater than cash deposits, over the short to medium term, with a focus on capital preservation by investing in lower risk Sharia-compliant investment vehicles.

This portfolio is actively managed, and will invest predominantly within Sukuk bonds and commodities, but will also look to have a more defensive approach to Sharia equities in order to manage risk and enhance returns.

Equity exposure is likely to range between 15-35% allowing managers to adapt to short term changes within investment markets.

All the investments held within the portfolios have been overseen by a Sharia Board to confirm they comply with Islamic ethics, so investors and their advisors can rest easy knowing they are making the right decisions.
